Event Overview

Since its inception in 2022, the LearnTech Conference & Exhibition has become Western Australia's leading event exploring the role of technology in education and training.

In 2026, LearnTech evolves to focus on the technologies, tools, and learning environments transforming how students learn and how educators teach. The conference will explore what is being deployed in classrooms, laboratories, workshops, and digital learning platforms across schools, TAFEs, and training centres.

From smart classrooms and interactive boards to simulation laboratories, robotics, coding and AI-assisted learning systems, LearnTech 2026 will showcase the technologies shaping modern

education. The program will examine how educators are activating these tools, to teach mathematics, science, coding, engineering fundamentals, and emerging technical skills in more engaging, hands-on, and practical ways.

A key theme of the conference will be where the post-school education and training system is heading. As industries rapidly evolve, education must prepare students for careers. LearnTech will explore how schools, TAFEs, and industry training providers are aligning curriculum, technology, and teaching methods to prepare students for future careers in automation, advanced manufacturing, digital engineering, renewable energy, robotics, and artificial intelligence.

The conference will highlight:

- Technologies transforming STEM learning in classrooms and training centres
- Smart classrooms, digital laboratories, and interactive learning environments
- Tools used to teach mathematics, science, coding, robotics, and engineering
- Simulation and virtual training systems used in industry and education
- AI-enabled learning platforms and adaptive education technologies
- How industry technologies are being integrated into education and training
- Emerging career pathways and the skills required for the future workforce

LearnTech brings together educators, training providers, industry, and technology developers to explore practical solutions that enhance learning outcomes and strengthen the connection between education and the workforce.

The 2026 event includes exhibition entry for educators, along with participation from schools, TAFEs, RTOs, and government organisations. Conference sessions will run alongside the exhibition and provide deeper discussions into the technologies, case studies, and strategies shaping the future of education.

Register your interest in attending, presenting, or exhibiting by emailing conferences@idc-online.com

Be part of the future of education and training at LearnTech 2026.

Key Motivations for Attending

1. Discover the technologies transforming classrooms and training environments
2. Explore smart classrooms, STEM laboratories, and digital learning tools
3. Learn how educators are integrating AI, coding, robotics, simulation, and immersive technologies to enhance the teaching of math and science through innovative digital tools
4. Gain practical ideas for modernising teaching methods and improving engagement
5. Connect with educators, training providers, and industry leaders

WA Educators Embrace

LearnTech®

CONFERENCE & EXHIBITION

“Seeing technologies presented by the exhibitors and speakers, I have identified components that can be integrated into our organisation and the industry as a whole”

Luke Parkinson:
Director, HazEd

“LearnTech is an excellent opportunity to connect with stakeholders”

Natasha Solomon:
Account Executive, Overdrive

“I was able to take away something from every session”

Nicole Adams:
Teacher & Director of Learning Reimagined, St Hilda’s Anglican School for Girls

“I have got something significant from every single speaker”

Penny Brerton:
Compliance & Education Support Manager, Fremantle Education Centre

“Really enjoyed it, thank you so much”

Lindsey Raeburn:
Trainer and Assessor, Applied Vocational Training

“It has been so worthwhile”

Sam Jayawardana:
CEO, Australia Institute of Higher and Further Education

“The event was really good, it went above and beyond my expectations”

Rhiannan Horton:
Head of Program – Science Resources & GreenSkills, North Metropolitan TAFE

Benefits of Sponsoring & Exhibiting

Partner with WA's fastest growing education technology event.

Cultivate future business prospects to optimise your return on investment.

Showcase your support for the STEM education sector.

Streamline efficiency and cost-effectiveness by engaging with clients and prospective clients simultaneously.

Ensure your products/solutions receive the visibility and consideration they deserve.

Elevate your brand visibility.

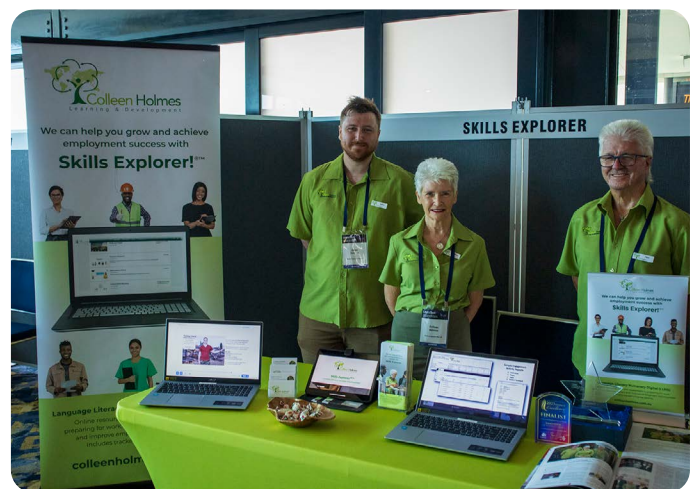

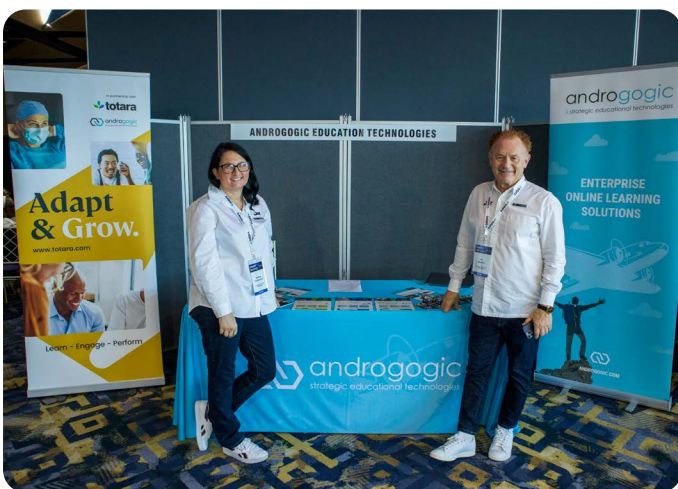

Collaborate with influential education leaders.

Enhance relationships with existing clients.

NB: Photos are from previous LearnTech events. 2026 Booths will be shell scheme as specified on pg.7

Sponsorship & Exhibition Packages

Sponsor and exhibitors packages will be allocated on a first-come first-served basis. Number of stands are strictly limited. Book today by emailing the application form to conferences@idc-online.com

Early Bird Discount: **10% Discount** for bookings received by 7th August 2026

Confirmation

Please email this signed form to conferences@idc-online.com. Please include a high resolution image of your company logo and a website link. These will be added to the LearnTech brochure and website.

Once we have received and reviewed your application, you will receive confirmation in writing along with an invoice for payment. Payment of the invoice must be made prior to the event.

Sponsorship Cancellation Policy

All cancellations must be made in writing to conferences@idc-online.com. Cancellations between 15 and 30 days from the conference will incur a 50% cancellation fee. Cancellations within 14 days of the conference will not receive a refund.

Speaking Opportunities

We would like to call all passionate educational innovators to contribute to LearnTech. We are actively seeking individuals who can:

- › Showcase practical applications of technologies in STEM education
- › Demonstrate the latest educational technologies
- › Describe innovative teaching and learning practices

In addition, we are looking for key guests who are willing to chair and actively participate in discussion panels.

To facilitate a seamless process, all presenters are required to submit their presentation materials three weeks prior to the event for review.

Sales presentations will not be accepted.

Join us in shaping the future of education through your valuable contributions at LearnTech!"

Topic Suggestions:

- › Practical applications of learning technologies
- › Artificial intelligence
- › Case studies in STEM education
- › Workplace and vocational STEM training solutions
- › Student management systems
- › Assessment and invigilation technologies for STEM subjects
- › Administration and automation software
- › Universal Design for Learning in STEM classrooms
- › Collaboration tools
- › Innovative eLearning solutions
- › Disruptive technologies and STEM-focused start-ups
- › Robotics
- › Learning apps
- › VR technologies
- › Gamification and simulation
- › Neuroscience of learning
- › Digital literacy, equity, and access in STEM education

How to Apply:

Complete the [Expression of Interest Form](#) and submit it to conferences@idc-online.com.

LearnTech[®] AWARDS

Are you an individual or organisation making significant strides in the fields of education, technology, and innovation? If so, we invite you to apply for the prestigious LearnTech Awards. Apply now for a chance to be recognised and celebrated for your achievements. Finalists and winners will be announced during the event.

Award Categories

Innovator of the Year Award

Celebrating visionary minds who have developed breakthrough technologies or tools that transform STEM teaching and learning. This award focuses on innovation in ed-tech solutions, platforms, or products that push the boundaries of STEM education.

Student-Centric Award

Recognising educators or programs that prioritise student engagement, participation, and learning outcomes in STEM subjects. This award celebrates initiatives that place students at the centre of technology-enhanced STEM learning experiences.

STEM Excellence Award

Recognising individuals, teams, or organisations that have made outstanding contributions to STEM education. This award celebrates innovative programs, teaching strategies, or initiatives that enhance STEM learning and inspire students and educators alike.

For more information and to apply visit [LearnTech Awards](https://www.learn-tech.com).

Applications close **23rd October 2026**.

About the Conference Organiser: IDC Technologies

IDC Technologies' head-quarters, located in Western Australia, oversee global technical conferences and training programs for professional development. IDC prides itself on a legacy spanning over three decades and across much of the world, including Australia, New Zealand, Singapore, the United Kingdom, Ireland, India, the USA, Canada, and South Africa.

IDC is committed to delivering high-quality events and workshops and has engaged many thousands of professionals over the years. The organisation's clientele include esteemed institutions and organisations worldwide, BHP, NASA, Rolls Royce and BP, to name a few. This attests to its reputation as a leader in professional development conferences and cutting-edge training.
